PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building and maintaining production web applications using Vue.js, Nuxt.js, JavaScript, and TypeScript. Skilled in reusable component development, REST API integration, responsive UI development, debugging, form validation, and frontend optimization. Contributed to 4 production applications, resolving 400+ defects and delivering 250+ enhancements while working in Agile development environments.

TECHNICAL SKILLS

Core Technologies: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks: Vue.js 2/3, Nuxt.js, Server-Side Rendering (SSR)

State Management: Vue Composition API, Pinia, Vuex

Routing: Vue Router

UI & Styling: Tailwind CSS, Bootstrap, Responsive Design, Cross-Browser Compatibility

APIs & Data: REST APIs, CRUD Operations, Postman, MySQL

Tools: Git, GitHub, Vite, Webpack, npm, CI/CD Concepts

Testing: Unit Testing, Vitest/Jest

Concepts: Reusable Components, Component-Based Architecture, API Integration, Form Validation, Debugging, Lazy Loading, Performance Optimization, Agile/Scrum

PROFESSIONAL EXPERIENCE

Frontend Developer | Owfis — Stark.ai / CRM.io

Sep 2023 – March 2024

Hyderabad, India

- Developed and enhanced recruitment platform features (Stark.ai) and CRM.io features across candidate profiles, candidate management, jobs, applications, contacts, deals, and dashboards using Vue.js, Nuxt.js, and TypeScript.
- Built reusable, responsive UI components and composables and integrated REST APIs to support CRUD operations and application workflows.
- Implemented form validation, API error handling, and data-driven UI states to support reliable user interactions.
- Applied Vue Router, lazy loading, and ES6+ code optimization to improve application navigation, maintainability, and frontend performance.
- Managed application state using Pinia/Vuex to support predictable data flow across candidate and CRM workflows.
- Resolved 150+ frontend defects and delivered 100+ enhancement requests through Git-based development and pull-request workflows.
- Collaborated with cross-functional teams in a 6-member Agile group, participating in sprint planning, daily stand-ups, development discussions, and weekly demos.

Frontend Developer | Mantra Technologies

Mar 2022 – Sep 2023

Hyderabad, India

- Developed and maintained frontend features across VoxDesk and PBXPlus, contributing to campaigns, contacts, lists, inbound/outbound calling, deals, and email management workflows.
- Built component-based, responsive interfaces using Vue.js, JavaScript, HTML5, and CSS3.
- Integrated REST APIs to support CRUD operations and application workflows and used Postman to test and validate frontend-backend communication.
- Resolved 250+ UI, functional, integration, and API-related defects and delivered 200+ enhancements across production applications.
- Used lazy loading and modern ES6+ JavaScript practices to optimize frontend code and support maintainable applications.
- Worked in an Agile/Scrum environment, contributing to sprint planning, daily stand-ups, team updates, and weekly product demonstrations.

PROJECTS

Personal Portfolio Website | Vue.js | Nuxt.js

- Built a responsive portfolio website using Vue.js and Nuxt.js to showcase professional experience, technical skills, and projects.
- Used reusable, component-based design to structure the hero, about, stats, and CTA sections.

Vue.js Practice Projects | Vue.js | Vite | TypeScript

- Developed interactive applications, including a calculator and number-guessing game, using Vue.js and TypeScript.
- Strengthened skills in reactive state management (including Pinia), event handling, component-based development, and responsive UI design.

EDUCATION

B.Tech — Computer Science & Engineering
Jawaharlal Nehru Technological University, Kakinada

2016 – 2020
